FROM THE PRESIDENT

Another Summer is happening right under our noses. This one seems busier than past ones, but looking back, they all seemed that way at the time. I wanted to include a copy of the Jim Coll Memorial Stunt Contest Flyer in this newsletter, so I'll have to keep my comments brief to conserve space. Below are some photos that represent what our club does – lots of different things. Some members come to fly in groups large and small, while others participate in organized activities like Bill giving the IMAC primer session. Members bring their new aircraft to

the field to test out, or have someone else shake the spiders out (usually that is all that falls out, but there have been exceptions). The upcoming Jim Coll Memorial event is another indication of how important the club can be to a member, and how many people one life can profoundly touch. Coming to the field is therapy for some of us – so don't hold back, let yourself play (the odds are in your favor at the field). Let me know if you have a new model ready to photograph, and I'll try to get some shots for you and the rest of the club to enjoy.

Scale Theme fly in

THE BUZZ

LAST MEETING

A club meeting was called to order at 7pm at the Field on July 8, 2009. The Treasurer had a schedule conflict and was not able to make the meeting.

Some members are missing cards – they will be located and delivered. The IMAC primer training will be held on Saturday at 10am until ? There was a show of hands indicating 3 or 4 members present would attend the meeting, and Bill will be given the final go ahead. While this training also serves to benefit IMAC through increased involvement, having Bill spend his day at our field helping fellow members is very much appreciated.

Members discussed a proposed member grievance procedure. A copy was distributed and the contents discussed. A copy will be emailed to all members of record and a vote will be taken at the next meeting.

The Jim Coll Memorial Control Line Stunt Contest was discussed. Plans are well underway for the event, sanctioning has been obtained and pilots are showing interest in attending. Members are needed for a few volunteer activities such as sign in and cooking.

The members discussed adding a club picnic on September 26. This event will be a members, guests and visitors fun day with a Scale Theme including Warbirds. The club will have food and drinks available. Members will be encouraged to mark their calendars and let family and friends know the schedule.

The meeting was called to a close at 7:35 pm.

TO BE DISCUSSED AT THE NEXT CLUB MEETING

Next Club Meeting:

1. Member Grievance Procedure Vote
2. Mowing schedule update
3. Summer club activities – Jim Coll event; club picnic

 spectrum x 9

HobbyTown USA®

Our local hobby store has generously offered club members a 10% discount on any purchases- all you have to do is let them know you are a club member. I wanted to remind members that having a home town hobby store supporting our club members is a real nice thing. While competing with on line stores and 'no tax'

Deleware stores can be a challenge, Hobby Town is making the effort. Shopping price isn't all there is to making an informed purchase- having someone open for business in town willing to do a special order or answer a question is a valuable service that only a local hobby store can provide. There may be customers in the

store when you call or stop by to ask about something, and not everybody gets a discount, so let's use our discount, but don't create a problem for them in the process.
