Dear Member-

Another apology - you all should be getting the hint that I will keep apologizing until things get back to normal. Help a guy out- get back to normal ASAP. I know y'all are busy, but playing with our toy airplanes is important.

I am playing catch up with event pics this month since we have had 2 events with no pictures. Sorry!

Back to business. I am starting to fly my airplanes in an effort to make some room in the trailer. Last flight, I was so happy to find a thermal that I let it take my plane out of sight. I will continue to sacrifice airplanes until member participation improves.

See you all at the field.

Jack Upchurch, President

A meeting was called to order ...

At the field on June 8 -- 7pm.

The meeting was called to order.

The Treasurer reported \$727.75 in checking and \$2026.75 in savings.

A safety reminder was made in response to increasing presence of new members and visitors during the summer months. Pilots are strongly encouraged to 'call out' when on the flight line. We all get used to flying with the same people and don't feel the need to signify our intentions such as - "dead stick", "landing", "taking off", or MOST IMPORTANTLY - "On the field". New members or visitors need our good example and we all need some warning before another pilot enters our flight path. Nothing serious has happened at the field... yet.

Scheduled events were discussed as well as the results of food sales at past events. The club is in good shape financially. Members were encouraged to support activities through participation, volunteering and coming up with new fun ideas.

There being no further business, the meeting was adjourned in near

record time at 7:09 pm.

About Eastern Shore Aeromodelers Club

We are an AMA chartered club, with membership open to those with an interest in things that fly. Check out our website, come to the field and watch us play with our toys, and join us if you like what you see.
